Key Business Insights

- Electronics generated the highest revenue among all product categories.
- The North region contributed the largest share of overall sales revenue.
- UPI and Credit Card were the most preferred payment methods among customers.
- Sales showed noticeable peaks during specific months, indicating seasonal demand patterns.
- High sales volume did not always translate into high revenue, highlighting the impact of product pricing.
- Some categories achieved strong sales quantities but contributed comparatively lower revenue.
- Customer purchases were distributed across multiple product categories, reducing dependency on a single product segment.
- Digital payment adoption continues to grow, reflecting changing customer purchasing behavior.
- Seasonal sales trends provide opportunities for better inventory planning and targeted marketing campaigns.
- Strong-performing categories and regions present significant opportunities for future business growth.
